

# Final event of GeoCamb and Designate

## Belspo BRAIN.be 2.0 projects

**When:** Monday 16 September 2024 (9h00 - 17h00)

**Where:** Institute of Natural Sciences (Vautier street 29, 1000 Brussels)

Participation is free of charge

Registration is mandatory (before 8 September): [Register Now](#)

Contact person: Karine Wuyts [kwuyts@naturalsciences.be](mailto:kwuyts@naturalsciences.be)

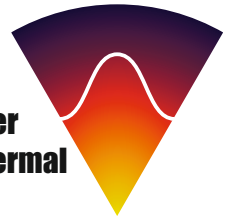

## GEOCAMB

### Evaluation of Cambrian Geothermal potential with focus on Public buildings

The GeoCamb project aimed to evaluate the demand for geothermal energy to heat public buildings and to investigate the geothermal potential of the Cambrian bedrock, subcropping beneath the Brabant provinces and the Brussels region.

## DESIGNATE

### Decision support under Uncertainty for Geothermal Applications

The Designate project aims to create interdisciplinary assessment methods to evaluate possible future scenarios under uncertainty for the development of deep geothermal systems in Belgium, including doublets, single well systems and abandoned mines.

### Preliminary agenda

*the detailed agenda will be available soon*

9h00 Welcome  
9h30 GeoCamb session

12h30 Lunch break
